Since his release from prison, he serves as Q's head of training and will guide you, the aspiring junior agents, through the challenge. Of course, you will see the legendary Bond girls in his entourage.

Optionally, the James Bond Party can be booked as a contest, with contestants earning casino chips for completion of activities, which in turn can be used to win big at the gambling table. The contestant or team with the highest number of chips at the end of the evening wins a prize.

# VINYARD RALLY

COMPLETE A SUSPENSEFUL MISSION IN AN IDYLIC WINE REGION AND ENJOY VARIOUS WINE SPECIALITIES OF THE REGION.

During this outdoor event guests will be divided into teams in order to complete different challenges to their skills. Each team is accompanied by a personal instructor, who advises them or offers assistance where needed for the tasks.

Several challenges, requiring physical activity, knowledge, and some daring, await the participants. The better they work as a team, the more points can be won. The first difficulty, however, lies in finding their way to the activity stations through the terrain of vineyards, meadows, and sparse forests by means of a compass and a partial map. At each station, another piece of the map is gained, offering a clue on where to find the next station.

At every one of these stops, some wine knowledge will be imparted, and a wine tasting can also be part of the program. To document the rally, a digital camera is part of the teams' equipment. Let your creativity run free and win bonus points for exceptional photos.

Optionally, a wine-themed gift basket will await the winning team.

# GET WET— BUILD YOUR OWN RAFT

CREATIVITY AND GREAT TEAMWORK BETWEEN PARTICIPANTS ARE THE SECRETS TO SUCCESSFULLY STAYING AFLOAT ON THIS EVENTFUL DAY!

The task at hand: build a working raft by assembling components provided by us. The ingredients for fun and success are practical solutions and effective cooperation within the team! Once the construction is completed, it's time for a discovery voyage and a fun raft race.

As soon as all participants are present, they will be greeted and briefed about the day's program by their instructor. After viewing the available materials, all participants receive an introduction into basic raft construction. These then need to be implemented independently by the participants, although our instructors will be available for any questions about the joint project and advise the team if needed.

The finished raft will then be launched in a controlled way. The joint project, the autonomous development of the raft, positively affects team cohesion, and it is also a lot of fun.

Upon request, the practical part can be followed by a seminar, reflecting the day together with the participants and examining how to transfer the experiences to their work environment.

Every participant receives a Raft Builder Certificate as a memento for the successful participation. About a week after the event, we will send you a selection of photographs of the team day, so the positive effect of the joint experience can be revisited anytime at the office.

## NUMBER OF PARTICIPANTS

A maximum of 50 people, bigger groups only upon request.
